## WAGE EARNERS OF NATION ARE BUILDING HOMES

OVER \$300,000,000 EXPENDED FOR PRIVATE DWELLINGS FOR WORKERS IN YEAR

New York, Nov 2.—More than \$300,000,000 will be this year's total investment in the purchase and construction of private dwellings by wage earners, according to statistics gathered by Bradstreet's, the Engineers News, F. W. Dodge company and exchange correspondents.

Prosperity has brought about a nation-wide movement from cities to suburbs where private homes are being built faster than ever before.

Wage earners profiting from the big wave of industrial and commercial prosperity are starting suburban homes around the big cities, especially those that have been busy with manufacturing.

They have been accumulating more savings than ever before, and this money, the banks find, they can loan on easy long-term mortgages, so wage earners may now find it easy to own their own homes.

According to the information gathered, suburban expansion follows the flow of new money among the masses and therefore it is believed a large part of the wealth will find its way into real estate.

Cities where manufacturing is the main industry are getting the greater part of the prosperity cash, and according to the "dope" the Methodists should come home to Alex winners by a nose score. With Captain Emery Miling back in the mire the buckeye will be stronger than in the last two games, while Stanford Rumsey the former high school star and one of the best broken field runners in the state, will be Baer's mate at left half and Reynolds, a weighty and experienced man formerly of the Cherokee Indian aggregation, will strength on the line at left guard. The squad and coach are not boasting, but are relying on the steady gain through the season so far to have advanced the O. M. U. team into class football form.

The following men will make the Alva trio—Stark, RE, J. Rhodes, BT, W. Snyder, BG, F. Alling, C. Reynolds, LG, Dodd, LT, Lamborn or Stevens, LE, Tippard, QB, Baer, RH, Rinare or W. Rhodes, LH, E. Alling or R. Snyder, FB; Story, Richard, Gwin substitutes.

On the 1916 figure, more than \$250,000 had already been put into home building. This figure, it is predicted, will rise above \$300,000,000 before the year ends.
